

Fully featured Audio Conferencing with Channel Telecom MeetMe

With less travel and faster decision making, audio conferencing can offer businesses a way to respond to day-to-day challenges quickly and effectively, ultimately helping to increase productivity and gain competitive advantage. Channel Telecom MeetMe is a great way to bring members of the sales, finance, human resources and IT, or any other 'virtual' team together, instantly. Our service availability means that participants from more than 45 countries can meet anytime for the cost of a local call.

MeetMe Overview

Arranging meetings can sometimes be frustrating. Imagine you're a manager with a team of 15 people who are based around the UK or even the world. There's an important new business initiative that you need to communicate to them immediately – how do you get them all together quickly and easily? Simple – use Channel Telecom MeetMe audio conferencing.

MeetMe is an instant conferencing service that requires only access to a phone to enable highly productive meetings with up to 40 participants UK or worldwide. No prior booking is required and conferences can be established in the time it takes participants to call in. The service is easy to use, and it's available at any time every day of the year.

MeetMe allows people from more than 45 countries to join a conference by dialling local in country access numbers and international toll free (freephone) numbers. MeetMe eliminates the need for participants to remember international dialling prefixes and country codes while also reducing the cost of joining conference calls by saving them the cost of an international call.

MeetMe does not replace all traditional face-to-face meetings but complements them by bringing participants together without anyone having to leave their office. So whatever your role, less time is spent travelling, enabling faster and more responsive decision-making.

MeetMe benefits

With MeetMe you enjoy:

- **Increased productivity**

Less travel and faster decision-making means increased productivity. With worldwide service availability participants from more than 45 countries can meet instantaneously, for the cost of a local call.

- **Competitive advantage**

You can respond more quickly and effectively. Sharing information is made easier and informed decisions can be made regardless of the location of key individuals. It can also help you reach and work with customers and suppliers wherever they are, widening your customer base and tapping into new markets.

- **Ease of use**

There's no need to book. All you need is a phone, landline or mobile. You don't need to be in an office to interact with colleagues, customers, suppliers and partners - you can use your own personal meeting room. The chairperson and participants use the same dial-in numbers and passcodes for every conference call.

- **Advanced features**

With a convenient meeting scheduler Add-in for Microsoft Outlook, and a Desktop Controller application, you'll find it a breeze to set up and control your conference calls.

MeetMe features

Functionality

- No prior booking required, conferences can be held instantaneously
- Interaction with other conference participants in your own personal meeting room.
- Easy-to-use, phone numbers and passcodes don't change
- Accommodates up to 40 participants per call
- Instantly record conference calls and download the recording after the call to archive or share the recording for future use*
- Harnesses the power of the phone to enable highly productive meetings.

Accessibility

- Participants need only a landline or mobile phone
- Available at any time, every day of the year
- Global Access available with both local and toll free access dial-in numbers for more than 45 countries
- Passcodes are specific to your meeting room and don't change.

Compatibility

Compatible with web conferencing through Microsoft® Office Live Meeting and WebEx (both also available through Channel Telecom).

Security

Conference lock to bar outsiders, even the operator, from sensitive conversations

Help and support

Any participant can request Co-ordinator help at any time.

Using MeetMe Global Access

Once your account is set up, you can supply participants with the local number for the country they are calling from. By using this they incur only local call charges.

Please visit our website for a list of countries where MeetMe Global Access is available:

* Each recording is charged at a fixed price, subject to your terms and conditions.
